Cσnductivity Website — §16 Trust, Governance and Responsible Talent Practices

Checklist · 23 October 2026

Done on the website **Partly** = website done, team policy or decision still needed **Not yet** = before launch

New page (23 Oct): Trust & Responsible Practices: the seven commitments, each linked to where you can see it on the site, plus a service-type table. Linked from the footer, the About menu and site search. **New on every inquiry form:** a "Why we ask" line next to the consent box.

Status	Principle	What the site does	Where
DONE	**Confidentiality**	Commitment stated; "your requirement stays confidential" on the employer form; talent submissions flagged restricted and kept out of server logs	Trust page · Employer form
DONE	**Consent**	Consent box on every form; "Why we ask" explains the purpose; profiles never shared with employers without permission; optional opt-in for updates	Talent form and all forms
PARTLY	**Transparency**	Table of service types (free engagement, assessments, training, advisory, recruitment); cost "confirmed before any work begins". Exact fees and which sessions are free await management	Trust page → service types
PARTLY	**Fairness**	Commitment to consistent, job-relevant evaluation stated. The methods themselves are an operations matter	Trust page
DONE	**Professional integrity**	"Does not guarantee employment" on the talent pages and form; verified, current openings only (expired ones hidden automatically); no statistics, logos or case studies until approved	For Talent · Opportunities
DONE	**Responsible AI**	Public statement: no AI is used to assess, score or match people; any future AI will be disclosed with human review of significant decisions. No AI feature exists on the site	Trust page
PARTLY	**Data stewardship**	Copy, correct and delete requests; restricted talent records; secure HTTPS hosting. Retention periods and CRM access controls still to be set	Preferences & Data Requests
NOT YET	**Legal review**	Privacy Notice, Terms, Cookies and Candidate Data pages are placeholders, hidden from search, awaiting a lawyer's review for each jurisdiction	Legal pages

Before launch, the team needs to: (1) get the legal pages and employment terms reviewed by a lawyer; (2) confirm fees and which services are free; (3) set data retention periods and CRM access permissions; (4) document the assessment methods used.
