Cσnductivity Website — §17 Measurement

Checklist · 23 October 2026

Ready = website tracking built; counts once the Google Analytics ID is added **CRM** = counted from CRM stages once the CRM is connected **Done** = working now

> **Built 23 Oct:** Google Analytics 4 with a cookie consent banner (analytics only after "Accept"); events for page views grouped by audience, form starts, form submissions (lead), call-to-action clicks and searches; a "content-assisted" flag on leads from visitors who read Insights. Every KPI below is defined, with its counting rule and source, in `src/lib/metrics.ts`. Tested with a stand-in recorder: form start, lead and button-click events all fired correctly.

17.1 Employer acquisition

Status	KPI	How it is counted
CRM	Qualified employer inquiries	Employer leads moved from Inquiry to Qualified Lead
READY	Consultation bookings	Leads reaching Discovery ÷ employer page visitors (analytics + CRM)
CRM	Proposal opportunities	Records reaching Proposal
CRM	Proposal-to-client conversion	Reaching Client ÷ reaching Proposal
READY	Cost per qualified lead	Campaign spend ÷ qualified leads per campaign source (every lead carries its source)
CRM	Repeat employer requirements	Organizations with more than one Active Requirement (matched on company key)

17.2 Talent development

Status	KPI	How it is counted
READY	Relevant talent registrations	Lead events with audience = talent; profiles at Registered Interest
CRM	Completed professional profiles	Profiles reaching Initial Profile
CRM	Readiness assessments completed	Readiness Activities of type assessment
CRM	Training and mentoring participation	Readiness Activities of type training or mentoring; program enrolments
CRM	Verified readiness milestones	Readiness Activities marked verified
CRM	Interviews and deployments	Profiles reaching Opportunity Consideration and Deployment
CRM	Post-placement outcomes	Continued Engagement; follow-up at 3, 6 and 12 months

17.3 Website and marketing

Status	KPI	How it is counted
READY	Relevant organic search traffic	Organic sessions to employer and talent pages (GA4 + Search Console)
READY	Engagement with employer and talent pages	Page views grouped as Employers, Talent, Partners, Insights
READY	Conversion rate by audience	Lead events ÷ sessions, per audience
READY	Form completion rates	Lead events ÷ form-start events, per form
EMAIL	Newsletter engagement	Opens and clicks per segment (newsletter service)
DONE	Content-assisted inquiries	Leads flagged "read Insights before enquiring" (sent with every lead)

READY	**Channel-to-qualified-lead performance**	Qualified leads by campaign source or referrer
READY	**Returning relevant visitors**	Returning users on employer and talent pages
READY	**Program inquiry conversions**	Talent leads asking for readiness programs, or from the Readiness page

> **To start measuring:** (1) create a Google Analytics 4 property and add its ID in Vercel as `NEXT_PUBLIC_GA_ID`; the consent banner then appears automatically; (2) connect the CRM (§13) so stage-based KPIs can be counted; (3) add the site to Google Search Console; (4) tag campaign links with utm_source / utm_campaign (e.g. LinkedIn posts).
