Conductivity Website — §3 Talent Pipeline Model Checklist

Checked 20 October 2026 · Links use the local dev server (http://localhost:3000); on the live site, swap in your domain.

> **Status: complete — 15 of 15 items done.** Every item in §3 of the blueprint is on the site and was checked in the browser. One sentence was added today: the three outcomes are the basis for impact reporting and case studies.

A. The five-stage model

	Blueprint item	Where it is on the site
✓	A proprietary, named model: "The Conductivity Talent Pipeline"	Our Model — page title banner
✓	Clearly explained five stages: Understand → Discover → Prepare → Connect → Sustain	Our Model — "Five stages" section
✓	Used as the visual foundation of the website	Home — "We Do More Than Fill Vacancies"; Our Model; stages also tagged on each Employer sub-page
✓	Shown as a continuous cycle, not a linear recruitment funnel (5 stages around a circle joined by 5 arrowed arcs; click a stage to see both sides)	Home and Our Model — interactive cycle diagram
✓	Full stage table: purpose, client-side and candidate-side contribution for every stage	Our Model — "Both sides at every stage" table

B. Each stage, both sides

	Stage · Purpose	Client-side contribution	Candidate-side contribution
✓	**1. Understand** Develop talent intelligence	Workforce planning, job analysis, capability and skill requirements	Career intelligence; strengths, interests, personality and capability analysis
✓	**2. Discover** Identify talent supply and demand	Talent sourcing, market mapping, succession pools	Career exploration, talent registration, competency profiles
✓	**3. Prepare** Build talent readiness	Employer requirements, training needs, role-specific expectations	Mentoring, training, assessment, portfolio and professional preparation
✓	**4. Connect** Create meaningful opportunities	Candidate selection, deployment, onboarding, international talent access	Employment opportunities, projects, placements and career transitions
✓	**5. Sustain** Deliver long-term value	Engagement, performance, retention, succession and HR maturity	Career progression, continuing development, re-engagement and alumni relationships

All five rows appear word for word in the Our Model table, and in the cycle diagram on Home and Our Model when each stage is selected.

C. Connection with management outcomes

	Blueprint item	Where it is on the site
✓	**Effectiveness:** Are organizations receiving the capabilities they need, and are people entering roles suited to their abilities?	Our Model — "How we judge results"
✓	**Efficiency:** Is the talent process reducing unnecessary hiring time, mismatches, development gaps and avoidable costs?	Our Model — "How we judge results"
✓	**Sustainability:** Are individuals and organizations growing in ways that strengthen future employability, performance, retention and capability?	Our Model — "How we judge results"
✓	These three dimensions are the basis for impact reporting and case studies *(added 20 Oct 2026)*	Our Model — line under "Effectiveness, efficiency, sustainability"
✓	Places ready for case studies built on these outcomes	For Employers and each Employer sub-page — case study slots (awaiting approved real examples)

D. Pages to open

Page	Address	What to look for
Our Model	localhost:3000/our-model	Title banner, five-stage cycle, "Both sides at every stage" table, "How we judge results"
Home	localhost:3000/	"We Do More Than Fill Vacancies" cycle diagram
For Employers	localhost:3000/employers	Case study slots

Total: 15 of 15 items done. Open item outside the website: real case studies must be written and approved before they replace the placeholder slots.
